A FINAL INVITATION

Guide to the "CELESTIAL CONVERSATIONS" Series.

What You Will Find

The Celestial Conversations are a collection of spiritual texts-available for free on Archive.org in both Book and Audio formats-organized into four main sections:

1. ***Conversations with the Grandchildren-To-Come***
2. ***Conversations with Guides and Masters on Heaven.***
3. ***Conversations with the Guides and Masters on Gaia***
4. ***Selected Themes from Conversations with the Guides and Masters on Gaia***

1. CONVERSATIONS WITH THE GRANDCHILDREN-TO-COME

The Story

This book grew out of the desire of Pim, who at age 65 was looking forward to meeting his grandchildren. Since the grandchildren were not coming, Pim - who has a rather impatient nature - decided to visit them himself. The voices of the Grandchildren, the Guides and the House came into Pim's head, and he translated them into written words.

What Happens in the Book

What would you do if you were 65 years old and knew that you probably wouldn't live long enough to really get to know your grandchildren?

Pim has found an extraordinary solution: meet them in dreams, before they are even born.

"**Conversations with Grandchildren-To-Come**" is a dreamlike tale where the impossible becomes reality. Pim learns to fly in dreams and discovers a magical House where Alìa and Kim, the grandchildren-to-come when he is eighty, live. But there is a surprise: instead of him teaching them about life, they are the ones who offer him a "heavenly" view of earthly existence.

The Journey of Growth

Accompanied by his Spiritual Guides - Ximènes and Grisenda - and a Talking House that sings wise rhymes, Pim traverses stormy flights, faces his deepest fears and discovers that reality is far more vast and wonderful than he imagined. Each dream is a journey of growth, where pain and joy intertwine in a path of spiritual evolution.

The Universal Themes

This book explores the universal themes of family love; fear of death; the meaning of life; and the possibility of transforming suffering into personal growth. A poetic adventure that reminds us that "everything is available to us to create evolution" and that perhaps the boundaries between dreams and reality are more subtle than we think.

2. CONVERSATIONS WITH GUIDES AND MASTERS ABOUT HEAVEN

What You'll Discover

What if the secret of happiness is to love oneself unconditionally? What if we are all creators of our own reality, but have simply forgotten it?

These Conversations offer a "heavenly" perspective on big issues, on questions that human beings have always asked themselves. With its unique blend of fantasy and spirituality, this book explores universal themes such as family love, fear of death, the meaning of life, and the possibility of transforming suffering into personal growth. Each conversation is an invitation to look beyond appearances, to recognize our creative power and to rediscover ***Unconditional Love for ourselves as the key to true happiness***. Our beloved Guides and Masters tell us that their vision, if we are open to accepting it and putting it into practice, can help us grow, give us peace and joy, and transform our lives.

How They Were Born

In this volume, the voices of the Guides and Masters were received and translated into written words by Silia. The dialogues were developed through Pim's questions and the answers of the Guides and Masters.

3. CONVERSATIONS WITH THE GUIDES AND MASTERS ON GAIA

The Heavenly Vision of Earthly Life.

This volume is a journey through all that we experience here on Earth, but with a joyful, peaceful and heavenly vision, inviting and guiding us to transform Fear into Joy of Living.

The Topics We Explore

From the moment we are born, to children and the relationship between parents and children, through fear, addictions, anger, emotions, relationships with others, illness, and the "Return to Heaven": the moment we leave our physical bodies.

Who Received the Messages

In Conversations on Gaia, the voices of the Guides and Masters were received and translated into written words by Silia and Cecilia.

Bibi's Special Contribution.

Offering us the Heavenly Vision of the Return to Heaven is Bibi - mother, sister, friend on Gaia, and now Heavenly Guide. Her unique perspective, having lived on both sides of the veil, offers comfort and understanding to those who grieve or fear death.

4. THEMES SELECTED FROM THE CONVERSATIONS ON GAIA

The Conversations with Guides and Masters on Gaia contain so many topics. To facilitate readers, instead of publishing the whole book all at once, "Selected Themes" have been extracted from the complete material. The first three themes published are:

THEME 1: THE RETURN OF THE SPIRIT TO HEAVEN

What really happens when a loved one "dies"?

Through the words of the Guides and Masters and the direct testimony of Bibi - mother, sister and friend on Gaia, now a Heavenly Guide - we discover that there is no such thing as "death" but only a wonderful movement of Return to the original spiritual dimension.

What This Text Offers

This text offers a celestial view of one of the most misunderstood events of earthly life and explores the transition from the perspective of those who leave and those who remain, showing how what we call "mourning" can become an Initiation to three basic doors: deep understanding of Universal Grief, Absolute Faith, and Acceptance. With intimate conversations and spiritual revelations, this theme offers comfort and a new understanding of the continuity of life beyond the physical form.

THEME 2: BEING PARENTS - EARTHLY GUIDES

How can we accompany the souls we have received as children?

The Guides show us how to use our beliefs, thoughts and energy for the maximum well-being of the welcomed souls, reminding us that we are co-creators with the Father.
This text offers a heavenly perspective on the role of parents and explores the sacredness of the parent-child bond as a "Unique, Independent, and Eternal" relationship, where every family dynamic becomes an opportunity for mutual growth.

What We Learn

How to use our beliefs, thoughts and energy for the maximum well-being of the welcomed souls. A reminder that we are co-creators with the Father. A deep understanding of the role of Parents, Earth Guides. How to turn family challenges into evolutionary opportunities.

THEME 3: ADDICTIONS - THE ROAD TO RECOVERY

How can we truly help those who have fallen into the trap of addictions?
What is the line between loving support and harmful involvement?
How do we maintain the necessary firmness without losing compassion?

Central Themes

The concept of "conversion"-changing direction, returning to the path of Love; the importance of Holy Detachment, therapeutic NO, recognition of the Divine Seed in each person.
Includes a letter directed to those who have fallen into the trap of addictions, an invitation to "choose Life" and leave the death of artificial paradises.

THE GUIDES' INVITATION TO PUBLICATION

The Heavenly Conversations were published because the Guides invited us to do so. Their first invitation to distribute the Messages was addressed to Silia:

"Silia, I ask you not to abandon this project. There will be hours in which it will all seem meaningless, unfounded and unproductive according to earthly standards. Do not listen. Look and continue on the path of Light. This is a great opportunity for many souls. The information you write should be distributed, because there are souls waiting for it."

The Eternal Nature of the Messages

The Guides also pointed out that:

"These messages are wonderful because they are not subject to the laws of time and space. They are eternal: they can be passed down for millions of Earth years and always be new and alive!"

"When we refer to Brothers and Sisters, we do not just mean you. When your children read the Messages, Brothers and Sisters will be directed to them. And when your children's children read, Brothers and Sisters will be directed to them. Let us not limit ourselves: Let us expand!"

At first the Guides' requests surprised us and we put them aside. Then their invitation was joined by that of the Grandchildren-To-Come, and as time passed the seeds of their desires grew in us. Finally we tried, and what you find is the result, available to our children, their children, and all who will read.

No Competition, Only Service

About the Conversations, here is what the Guides told us:

"There are infinite Voices on the planet in this hour: each with its own reason for being and with the vibration responding to similar energy waves. There is no competition, but solely: service."

"Let go of expectations. There will be those who will welcome the Conversations and those who will challenge them. In most cases, those who have to find them will find them; those who are not ready will not acknowledge them. All this is absolutely not in your control, it belongs to everyone's evolution and free will. It is in the hands of the Universe."

THE GUIDES AND MASTERS

To the question "Who are the Guides and Masters?" here is their answer:

"We are nothing but Unembodied Consciousness, part of the ONE. We are your Universal Brothers and Sisters, or your Guides, if you prefer to call us by that name."

"What does it mean for us to be Guides? It means to be service. We are service. Without judgment, without criticism, without expectations, without demands, without teaching, without doctrine, without superiority. We are here to serve and love you."

"We have been taught that the act of offering from the heart and putting ourselves in service without expecting any recognition is a pure act of love. An act at once very simple and immense. A gift to ourselves and to the Whole."

"Our incarnations on Gaia have been countless, and we have experienced so much, and participated in our own growth and the growth of the ONE, just as you are doing in this NOW."

BIBI, SILIA, CECILIA AND PIM

Bibi is Silia and Cecilia's mother; **Silia** is Cecilia's sister; **Cecilia** is Pim's other half; **Pim** is the one writing these words.
These Conversations are the result of interweaving the energies of our family with those of the Guides and Masters.

THE LANGUAGE OF THE GUIDES AND MASTERS

Understanding the Messages is not easy, especially at first. Over time, however, what seems confusing and strange becomes clear, and it becomes a pleasure to read them.

The Guides' Advice on Patience

It can be helpful to follow the Guides' advice:
"What we say comes to you in the form of 'blocks of thought.' In your mind at first, the information you receive may appear as an agglomerated mass, difficult to untangle. Imagine a mosaic. Each block is like a tile in the mosaic. To see the complete picture, each tile must find its place. Listen to us patiently."
The understanding of the Messages also changes over time. A proverb says, "when the Student is ready, the Master appears." The same Message "appears" to us in one way, or quite another way, depending on our "growth."

A FINAL INVITATION

These Conversations do not claim to be the only truth or the only way. As the Guides say, there is no competition in spiritual service. They are offered with Love to those who will find them useful in their own journey.

The texts are available for free on Archive.org, because as the Guides say, "there are souls waiting for them."
